The following action is in response to the proposed amendment-after-final received January 19, 2006. The examiner has approved the proposed amendment for entry.

***Allowable Subject Matter***

Claims 1-6, 8, 10-16, 18, and 20 are allowed.

***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance: The prior art of record fails to disclose or render obvious a pulsation dampening apparatus as defined in claims 1 and 11 having a force conversion mechanism which converts a spring-back force of the elastic retainer in the preloaded state to urge the circular fulcrum of the working unit elastically against the vibration dampening member and towards the dampening chamber.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Response to Amendment***

After reconsideration, it is agreed that the art of record fails to teach modifying the prior art dampening devices to have the claimed force conversion mechanism. Accordingly, the rejections under 35 USC 103(a) set forth in the previous Office action are withdrawn. The claims are allowable for the reason set forth above under "Reasons for Allowance".

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rodney H. Bonck whose telephone number is (571) 272-7089. The examiner can normally be reached on Monday-Friday 7:00AM - 3:30PM.
